

EAIT - EUROPEAN ASSOCIATION FOR INTEGRATIVE THERAPY

The European Association for Integrative Therapy – EAIT – was founded in 2007. The association is meant to be an umbrella organisation of integrative therapists, training institutes and organisations for Integrative Therapy in whole Europe.

Main goals of the association are

- to spread Integrative Therapy as a method of psychotherapy
- to represent Integrative Therapy in national and international professional communities
- to encourage and perform scientific research in its field
- to advance its recognition in the different European countries.

So far members come from Norway, the Netherlands, Germany, Luxemburg, France, Switzerland, Austria and Slovenia. In Austria Integrative Therapy is legally recognized as a method of psychotherapy. The Department for Psychosocial Medicine and Psychotherapy is the responsible body for certified training in Integrative Therapy.

Prof. DDDr. Hilarion G. Petzold acts as honorary president of the EAIT.
